

ABOUT ME

Experienced Full Stack Software Developer passionate about programming and dedicated to continuous learning. With a commitment to excellence, I actively seek out new challenges to expand my skill set and drive innovation. Feel free to explore my [GitHub](#) repository to discover a diverse range of projects showcasing my expertise.

EDUCATION

Addis Ababa University

Bachelor of Software Engineering: 2022 - 2026

PROFESSIONAL EXPERIENCE

Flutter Developer: NEO AI Technologies ·

Internship February 2024 - present (3 months)

- Collaborate with a multidisciplinary team to design, implement, and optimize user interfaces.
- Utilize the Flutter framework to create engaging and responsive mobile applications.
- Participate in code reviews, debugging sessions, and continuous improvement initiatives.

Frontend Web Developer GAOTek Inc. · Internship January 2024 - February 2024 (2 months) Location: New York, United States (Remote)

- Contributed to the development of front-end components and features for web applications.
- Worked collaboratively with the team to implement responsive and visually appealing user interfaces.

Software Engineer at Zoobook (March 2024 - Present) | Remote, New Jersey

At Zoobook, a U.S.-based leader in EHR solutions, I develop and optimize .NET applications for healthcare. Leveraging .NET Core and ASP.NET, I build secure, scalable EHR systems, streamline data management, and ensure high code quality to support efficient healthcare operations.

Coordinator of Volunteers We Are One Foundation ·

Part-time August 2022 - February 2023 (7 months)

Location: Ethiopia (On-site)

- Managed and coordinated volunteer activities and schedules effectively.
- Facilitated communication between volunteers and organization leaders.

PROJECT

[MEAN Stack Insurance Web Application Portal](#)

- Led the development of a comprehensive insurance web application portal using the MEAN (MongoDB, Express.js, Angular, Node.js) stack.
- Implemented robust authorization and authentication systems to ensure secure access to the portal's features and data.
- Integrated seamless payment methods, facilitating easy transactions for users.

[Spotify Clone with React.js and Firebase](#)

- Spearheaded the development of a Spotify clone using React.js and Firebase.
- Implemented features for music playback and track transfer, delivering a seamless user experience akin to Spotify.
- Leveraged Firebase for efficient music data storage and management, ensuring scalability and reliability.
- Collaborated with a team of developers to brainstorm ideas, iterate on design, and troubleshoot issues.

[Zoom Web Application Clone](#)

- Led the development of a Zoom web application clone using React.js for the frontend, ensuring a modern and intuitive user interface.
- Integrated Socket.IO for real-time communication between users, facilitating seamless interaction and collaboration.
- Implemented webcam functionality to enable video conferencing, enabling users to engage in face-to-face communication.
